

METHOD OF VISUALLY INDICATING TRANSFER OF DATA
IN RESPONSE TO A TRANSFER DATA COMMAND

5

ABSTRACT OF THE DISCLOSURE

A method of previewing a graphical image corresponding to an icon in a clipboard is provided. A paste command is received from a user. A determination is made whether a plurality of objects are stored within the clipboard. A clipboard may be displayed adjacent a display position indicator, if it is determined a plurality of objects are within the clipboard. An icon preview instruction is received from a user. A graphical image associated with the icon is displayed in response to the icon preview instruction.
